SAFETY DATA SHEET

1. PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

MANUFACTURER
GLUE 360 INC
PO BOX 809
CEDAR CREEK, TX 78612
Product Stewardship: (833) 360-3606

2. HAZARDS IDENTIFICATION

GHS CLASSIFICATIONS
Health:
- Acute Toxicity (Oral), Category 4
- Skin Sensitization, Category 1
- Skin Irritation, Category 2
- Eye Irritation, Category 2B
- Target Organ Toxicity (Single exposure), Category 3

Environmental:
- Acute Hazards to the Aquatic Environment, Category 3
- Chronic Hazards to the Aquatic Environment, Category 3

Physical:
- Flammable Liquids,

Category 2 GHS LABEL

SIGNAL WORD: DANGER

HAZARD STATEMENTS

H226: Flammable liquid and vapour.
H302: Harmful if swallowed.
H315: Causes skin irritation.
H317: May cause an allergic skin reaction.
H320: Causes eye irritation.
H335: May cause respiratory irritation.
H402: Harmful to aquatic life.
H412: Harmful to aquatic life with long lasting effects.
SAFETY DATA SHEET

GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

H320: Causes eye irritation.
H315: Causes skin irritation.
7708NAHS: Causes respiratory tract irritation.

PRECAUTIONARY STATEMENT(S)

Prevention:
- P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P233: Keep container tightly closed.
- P240: Ground and bond container and receiving equipment.
- P241: Use explosion-proof [electrical/ventilating/lighting/...] equipment.
- P242: Use non-sparking tools.
- P264: Wash thoroughly after handling.
- P270: Do not eat, drink or smoke when using this product.
- P271: Use only outdoors or in a well-ventilated area.
- P272: Contaminated work clothing should not be allowed out of the workplace.
- P280: Wear protective gloves/protective clothing/eye protection/face protection.

Response:
- P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower].
- P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P312: Call a POISON CENTER/doctor/...if you feel unwell.
- P321: Specific treatment (see Section 4).
- P333+P313: If skin irritation or rash occurs: Get medical advice/attention.
- P362: Take off contaminated clothing.
- P370+P378: In case of fire: Use ... to extinguish.

Storage:

Disposal:
- P501: Dispose of contents/container to ...

EMERGENCY OVERVIEW

IMMEDIATE CONCERNS: WARNING! FLAMMABLE LIQUID AND VAPOR. Harmful, Skin Sensitizer. Irritant.

POTENTIAL HEALTH EFFECTS

EYES: Can cause moderate irritation, burning sensation, tearing, redness, and swelling. Overexposure may cause lacrimation, conjunctivitis, corneal damage and permanent injury.

SKIN: Can cause skin irritation; itching, redness, rashes, hives, burning, and swelling. Allergic reactions are possible. May cause skin sensitization, an allergic reaction, which becomes evident on reexposure to this material.

INGESTION: Can cause irritation, a burning sensation of the mouth, throat and gastrointestinal tract and abdominal pain.

INHALATION: Respiratory tract irritant. High concentrations may cause dizziness, headache, and anesthetic effects. Mat cause respiratory sensitization with asthma-like symptoms in susceptible individuals.

CARCINOGENICITY: IARC has classified both MMA and benzoyl peroxide as Class 3 agents.
SAFETY DATA SHEET
GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

MEDICAL CONDITIONS AGGRAVATED: Individuals with pre-existing skin disorders, asthma, allergies or known sensitization may be more susceptible to the effects of this product.

ROUTES OF ENTRY: Eye and Skin Contact, Inhalation and Ingestion

IRRITANCY: Eyes, nose, throat, respiratory tract, and skin irritation.

SENSITIZATION: May cause allergic respiratory and skin reaction. Respiratory and skin sensitizer.

COMMENTS: Note: MMA, Polymethyl Methacrylate, TSRN 800941-5016P and TSRN 800941-5020P are contained in the Adhesive (10) Benzoyl Peroxide, Diisobutyl Phthalate, Texanol Benzyl Phthalate and TSRN 800941-5006P are contained in the Activator (1)

The wt % is based on each formula, not the blended product.

4. FIRST AID MEASURES

EYES: Immediately flush eyes with plenty of tempered water (at least 15-20 minutes) lifting upper and lower eye lids occasionally. Get immediate medical attention.

SKIN: Immediately wash skin with soap and plenty of water. Remove contaminated clothing. Get medical attention if symptoms occur. Wash or dispose of clothing before reuse.

INGESTION: If swallowed, do NOT induce vomiting. Call a physician or poison control center immediately. Never give anything by mouth to an unconscious person.

INHALATION: Remove to fresh air. If not breathing, give artificial respiration or give oxygen by trained personnel. Seek immediate medical attention.

SIGNS AND SYMPTOMS OF OVEREXPOSURE

EYES: Can cause stinging, watering, redness, and swelling.

SKIN: May cause skin irritation; itching, redness, rashes, hives, burning and swelling.

INGESTION: Ingestion of this material can cause mouth, throat and gastrointestinal tract irritation and abdominal pains.
## SAFETY DATA SHEET

Date Prepared: 02/08/2018  
MSDS No.: P9100 & P9300  
Date Revised: 02/08/2018  
Revision No.: 1

### GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

**INHALATION:** Respiratory tract irritation. High concentration may cause dizziness, headache, and anesthetic effects.

**ACUTE EFFECTS:** Overexposure can cause headaches, dizziness, nausea and vomiting. Irritant.

**CHRONIC EFFECTS:** Prolonged skin contact may lead to burning associated with severe reddening, swelling and possible tissue destruction.

**ADDITIONAL INFORMATION:** Due to possible aspiration into the lungs, DO NOT induce vomiting if ingested. Provide a glass of water to dilute the material in the stomach. If vomiting occurs naturally, have the person lean forward to reduce the risk of aspiration.

### 5. FIRE FIGHTING MEASURES

**FLAMMABLE CLASS:** Class IB

**GENERAL HAZARD:** Flammable liquid and vapor.

**EXTINGUISHING MEDIA:** Use carbon dioxide (CO2) or dry chemical when fighting fires involving this material. **OTHER CONSIDERATIONS:** Water may cause frothing.

**EXPLOSION HAZARDS:** Sealed containers at elevated temperatures may rupture explosively and spread fire due to polymerization.

**FIRE FIGHTING PROCEDURES:** Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to minimize risk of rupture. Do not enter confined fire space without full protective gear. If possible, contain fire run-off water.

**FIRE FIGHTING EQUIPMENT:** As in any fire, wear Self-Contained Breathing Apparatus (SCBA) MSHA/NIOSH approved or equivalent and full protective clothing.

### 6. ACCIDENTAL RELEASE MEASURES

**SMALL SPILL:** Dike area to contain spill. Take precautions as necessary to prevent contamination of ground and surface waters. Recover spilled material on absorbent, such as sawdust or vermiculite, and sweep into closed containers for disposal. After all visible traces, including ignitable vapors, have been removed, thoroughly wet vacuum the area. Do not flush to sewer. If area of spill is porous, remove as much contaminated earth and gravel, etc. as necessary and place in closed containers for disposal. Only those persons who are adequately trained, authorized, and wearing the required personal protective equipment (PPE) should participate in spill response and clean-up.

**LARGE SPILL:** Keep spectators away. Only those persons who are adequately trained, authorized and wearing the required personal protective equipment (PPE) should participate in spill response and clean-up. Ventilate the area by natural means or by explosion proof mechanical means (i.e. fans). Know and prepare for spill response before using or handling this product. Eliminate all ignition sources (flames, hot surfaces, portable heaters and sources of electrical, static, or frictional sparks). Dike and contain spill with inert material (e.g. sand, earth). Transfer liquids to covered and labeled metal containers for recovery or disposal, or remove with inert absorbent. Use only non-sparking tools and appropriate PPE. Place absorbent diking materials in covered metal containers for disposal. Prevent contamination of sewers, streams, and groundwater with spilled material or used absorbent.

**COMMENTS:** Pump or shovel to storage/salvage vessels. Add inhibitor to prevent polymerization.

### 7. HANDLING AND STORAGE

**GENERAL PROCEDURES:** For professional or industrial use only. Follow label instructions. Keep out of the reach of children. Not for consumption. No smoking. Do not breathe vapors. Avoid contact with body. Empty containers must not be washed and re-used for any purpose. Contact lens wearers must wear protective eye wear around
GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

chemical vapors and liquid. Wash hands thoroughly after handling. To prevent build-up of vapors, use adequate natural and/or mechanical ventilation (e.g. open all windows and doors to achieve cross ventilation).

HANDLING: Use with adequate ventilation. Avoid breathing vapor, aerosol or mist. Material will accumulate static charges which may cause an electrical spark (ignition source). Use proper bonding and grounding procedures. Do not reuse containers.

STORAGE: Store in a cool, dry, well ventilated area away from sources of heat, combustible materials, direct sunlight, and incompatible materials. Keep container tightly closed when not in use.

SHELF LIFE: 18 months from manufacture date

COMMENTS: Wash thoroughly after handling.

Footnotes:  
1. NL = Not Listed

**ENGINEERING CONTROLS:** Provide sufficient explosion proof mechanical (general and/or local exhaust) ventilation to maintain exposure below the occupational exposure limit and exposure concentration. Use only in a well ventilated area. Ground and bond all equipment.

**PERSONAL PROTECTIVE EQUIPMENT**

**EYES AND FACE:** Wear safety glasses with side shields, goggles or full-face shield as required by 29 CFR 1910.133 - OSHA Eye and Face Protection Standard. A suitable emergency eye wash station and safety shower should be located near the work station.

**SKIN:** Wear chemical resistant, impervious gloves.

**RESPIRATORY:** NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

**WORK HYGIENIC PRACTICES:** Use good hygiene practices when handling this material. Wash hands thoroughly after use.

**OTHER USE PRECAUTIONS:** Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

10. STABILITY AND REACTIVITY

REACTIVITY: No
HAZARDOUS POLYMERIZATION: Polymerization may occur under certain conditions.
STABILITY: Unstable.
CONDITIONS TO AVOID: Adhesive - Extreme heat, sparks, and open flame. Incompatible materials, oxidizers
GLUE 360 2-Component Solid Surfacing Adhesive (10:1 Ratio) - All Colors

and oxidizing conditions. Oxygen-free atmospheres or inert gas blanketing. Freezing conditions. Material can soften paint and rubber.

Activator - Extreme heat, sparks, and open flame. Incompatible materials, oxidizers and oxidizing conditions. Contamination, direct sunlight, friction and prolonged storage above 100°F (38°C).

INCOMPATIBLE MATERIALS: Oxidizing agents, strong acids and strong alkalis.

12. ECOLOGICAL INFORMATION

ENVIRONMENTAL DATA: This product contains components that may be harmful to aquatic organisms and may cause long term adverse effects in the aquatic environment.

ECOTOXICOLOGICAL INFORMATION: Contains components that are potentially toxic to freshwater and saltwater ecosystems.

BIOACCUMULATION/ACCUMULATION: Contains components with the potential to bio-accumulate.

13. DISPOSAL CONSIDERATIONS

DISPOSAL METHOD: Dispose of in accordance with all local, state and federal regulations.

GENERAL COMMENTS: Adhesive

DANGER! Rags, steel wool, and waste soaked with this product may spontaneously catch fire if improperly discarded or stored. To avoid a spontaneous combustion fire, immediately after use, place rags, steel wool or waste in a sealed, water-filled metal container.
